[Trilogy Leasing Posts Strong Performance Through Q3 '02](#)

December 17, 2002. Trilogy Leasing, a privately held, diversified leasing company specializing in technology and telecommunications equipment is proud to announce its results through the third quarter of 2002.

Revenues through the first nine months of 2002 were about \$16m, approximating revenues for ALL of 2001 while profits, at \$1.2m through the third quarter, are running at nearly double last year's rate.

Trilogy credits this strong performance to solid customer relationships; strong support from the banking community; and a stable, experienced, and very dedicated staff. Jeff Liebenthal, President and CEO of Trilogy, adds, "Our stated goal of diversifying our portfolio and geographic presence has been accomplished. We have been executing leases on equipment in the areas of telecommunications, computing, mail equipment, warehouse equipment, and medical equipment to name a few. We now have customers and sales offices coast to coast. We will continue to conservatively manage our operation, and as we grow, we will take advantage of the economies of scale of a stable expense base."

Trilogy, although privately held will continue to provide updates on its performance.
