### **Trilogy announces 2007 Operating Results**

Trilogy Leasing, a Cranbury, NJ based leasing company specializing in technology, telecommunications, medical, warehouse, mailroom, and other capital equipment, is proud to announce record earnings of \$3.3 million for calendar year 2007. This represents an increase of 12% over 2006 earnings. This year was the eighth consecutive year of earnings growth, and therefore the eighth straight year of record earnings.

Revenues rose to a record \$25.7 million, an 8% increase over 2006. Jeff Liebenthal commented, “We are most proud of our accomplishments during the 2007 calendar year. Trilogy took a quantum leap forward in terms of our lease origination performance, initiating \$70M in new leases, and that trend continues into 2008. Our cash position was at a record level at the close of 2007 and exceeds that today. Net worth is now in excess of \$18M. These outstanding results are the product of a talented and dedicated staff and deep relationships with our customer, banking, and supplier partners. The company expanded during 2007 for the first time outside of its US borders by establishing a unit in Canada. Our portfolio remains balanced in terms of clients and product mix which is consistent with our objectives. Since the close of 2007, we have continued to aggressively grow our sales staff and have accelerated our cross marketing with our sister company, Trilogy Solutions, an HP channel partner and consulting firm.”

Trilogy Leasing, although a private company, will continue to provide updates on its performance on a regular basis.
