Trilogy Announces 2010 Operating Results

Cranbury, New Jersey—Trilogy Leasing, an independent leasing company specializing in technology equipment leases, is pleased to report 2010 earnings of \$3.9 million, a 29% increase over 2009 results. Revenues rose 11%, to \$33.8 million. “2010 was a record year for Trilogy Leasing in both revenues and earnings. We have continued to strengthen our existing relationships, generate new partnerships and grow our business. In addition to our sister company, Trilogy Solutions, an HP Elite Channel Partner, we have now added managed services to our portfolio of products. We are most excited about this new line of business and will be focusing on hosted applications, disaster recovery and co-location services at the onset. We believe our triumvirate of financing, technology solutions and managed services will be a powerful combination forging continued growth going forward. Trilogy has a loyal customer base, an experienced and dedicated staff, strong banking support and a broad and synergistic product line. We are most proud of what we have accomplished to date, are in no way complacent and are looking forward to greater achievements in the future,” stated Jeff Liebenthal, President/CEO of Trilogy Leasing.

Jeff continued by saying, “Once again, we ended the year at record levels of cash on hand, portfolio size, and sales personnel, our three critical metrics.”

Trilogy Leasing is a private company but will continue to provide updates on its performance on a regular basis.
